Reflection Time!

What is one new thing you learned about Singapore that surprised or inspired you?

Why do you think it is important to remember and celebrate Singapore's pop culture?

If you could create something for the next 60 years of Singapore, what would it be, and why?

THANK YOU

Thanks for joining me on this adventure through
SingaPop! 60 Years of Singapore's Pop Culture!

We've explored music, food, fashion, films, and stories
that show how our identity has been shaped by many
cultures and experiences.

Just like a plate of *rojak*, Singapore is special because
of the different "ingredients" we each bring.

I hope today has inspired you to think about what
makes Singapore unique, and how you can help
shape its future story.

Till next time, keep exploring, keep imagining, and
keep celebrating our home. Bye for now!
